

Legislation Report No. 1

Middle Peninsula Planning District Commission

The 2018 Virginia General Assembly Session convened on Wednesday, January 10th. Members of the House of Delegates were sworn in on Wednesday, and a new Speaker of the House was unanimously selected. Kirk Cox (R-Colonial Heights) will serve as Speaker for the next two years. Committee assignments for House members were announced on Thursday. The Senate continues its business as usual, except that this week the newly inaugurated Lieutenant Governor, Justin Fairfax, will preside on the floor of the Senate. Inauguration Day was Saturday, and Governor Ralph Northam will address a joint meeting of both chambers of the General Assembly this evening.

My initial week of activity focused on the refinement of proposed legislation specified by MPPDC, and working with Sen. Lewis and Del. Bloxom on legislation that captures and redirects monies to a waterway management fund for use in coastal dredging. Meetings were held with seafood industry representatives re. dredging, DEQ, and the Virginia Port Authority on various coastal waterfront and dredging legislation. Additionally, we worked on the refinement of budget amendments regarding development of barge and rail service to VPA; and, language redirecting monies for dredging (similar to SB 693/Hb 575 legislation).

As of this writing, over 2,400 bills have been filed. More bills are expected to be posted online after the Friday afternoon bill filing deadline. A summary of the bills key to the Middle Peninsula PDC are provided below. A separate composite file just on stormwater legislation is also attached. Links are provided to the full text of legislation.

HB 1308 Stormwater; local plan review; acceptance of signed plan in lieu of review.

Chief patron: Hodges

A BILL to amend and reenact § 62.1-44.15:24, as it is currently effective and as it shall become effective, of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 62.1-44.15:27.2, relating to plan review; acceptance of signed plan in lieu of review.

Summary as introduced:

Stormwater; local plan review; acceptance of signed plan in lieu of review. Authorizes any rural Tidewater locality, whether or not it has opted out of administering a stormwater or erosion and sediment control program, to require that a licensed professional retained by the applicant submit a set of plans and supporting calculations for land-disturbing activities that disturb 2,500 square feet or more but less than one acre of land. The bill requires the plans to bear a certification and to be signed and sealed by the professional. The locality is required to accept such plans in satisfaction of the local plan review requirement. The bill also directs the Department of Environmental Quality to examine the possibility of expanding the use of the agreement in lieu of a stormwater management plan, currently authorized for use in the construction of certain single-family residences, to include any nonresidential development site of less than one acre in a rural Tidewater locality.

HB 1307 Stormwater management; rural Tidewater; tiered approach to water quantity technical criteria.

Chief patron: Hodges

A BILL to amend and reenact §§ 62.1-44.15:24 and 62.1-44.15:27, as they are currently effective and as they shall become effective, of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 62.1-44.15:27.2, relating to stormwater management; rural Tidewater; tiered approach.

Summary as introduced:

Stormwater management; rural Tidewater; tiered approach to water quantity technical criteria; impervious cover percentage. Allows any rural Tidewater locality, as defined in the bill, to

comply with water quantity technical criteria for certain land-disturbing activities based on the percentage of impervious cover in the watershed. The bill provides that any eligible locality electing to use certain control standards shall, by ordinance, adopt an official map that indicates the percentage of impervious cover in each watershed within the locality and shall update the map at least annually. The bill allows any such locality to apply one of the following three standards for managing water quantity to any new development project: (i) if the site, as indicated on the map, has less than 5.0 percent impervious cover, the standard shall be a particular State Water Control Board regulation; (ii) if the watershed has 5.0 percent or more but less than 7.5 percent impervious cover, the standard shall be the one-year, 24-hour release method; and (iii) if the watershed has 7.5 percent or more impervious cover, the standard shall be the energy balance method. The bill provides that any project whose construction would cause the watershed in which it is located to step up to the next higher tier shall be evaluated under the energy balance method or a more stringent alternative.

The bill also directs the Department of Environmental Quality to use an appropriate new or existing Regulatory Advisory Panel to assist in clarifying the interpretation and application of the MS-19 standard.

HB 771 Potomac Aquifer recharge monitoring; advisory board; laboratory established; SWIFT Project.

Chief patron: Jones, S.C.

A BILL to amend and reenact § 62.1-44.15, as it is currently effective and as it shall become effective, of the Code of Virginia and to amend the Code of Virginia by adding a section numbered § 32.1-175.02 and by adding in Title 62.1 a chapter numbered 26, consisting of sections numbered 62.1-271 through 62.1-274, relating to Potomac Aquifer recharge monitoring; laboratory established; SWIFT Project.

Summary as introduced:

Potomac Aquifer recharge monitoring; advisory board; laboratory established; SWIFT Project. Creates an advisory board and a laboratory to monitor the effects of the Sustainable Water Infrastructure for Tomorrow (SWIFT) Project being undertaken by the Hampton Roads Sanitation District (HRSD).

The bill establishes an eight-member advisory board called the Potomac Aquifer Recharge Oversight Committee (the Committee), directing it to ensure that the SWIFT Project is monitored independently. The bill provides that the Committee shall consist of the State Health Commissioner, the Director of the Department of Environmental Quality, the Executive Director of the Hampton Roads Planning District Commission, the two Co-Directors of the Laboratory, the Director of the Occoquan Watershed Monitoring Laboratory, and two Virginia citizens appointed by the Governor, and the bill also provides for two nonvoting members. The Committee is required by the bill to meet at least quarterly during the initial three years of its existence. The bill also authorizes the Committee to appoint a science and technical advisory council and directs the Committee to request funding from HRSD for the first three years of monitoring of the recharge of the aquifer.

The bill also creates the Potomac Aquifer Recharge Monitoring Laboratory (the Laboratory) at Old Dominion University (ODU), placing it under the direction of an ODU faculty member and the co-direction of a faculty member at Virginia Tech. The bill provides that the Laboratory shall

monitor the impact of the SWIFT Project on the Potomac Aquifer, manage testing data, and conduct water sampling and analysis.

The bill authorizes both the Commissioner of the Department of Health and the State Water Control Board to issue emergency orders to halt injection or make any change to any facility of the SWIFT Project.

HB 1186 Ground water withdrawal permit; priority for human consumptive use; public supplier.

Chief patron: Carr

Patrons: Carr and Plum; Senator: Howell

A BILL to amend and reenact §§ 62.1-254 and 62.1-255 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 62.1-266.1, relating to ground water withdrawal permits; priority for human consumptive use; public suppliers.

Summary as introduced:

Ground water withdrawal permit; priority for human consumptive use; public supplier.

Directs the State Water Control Board (the Board) to instruct the Department of Environmental Quality (the Department) to modify the permitted withdrawal amounts for certain industrial holders of water withdrawal permits within the Eastern Virginia Groundwater Management Area (EVGMA). The bill establishes several steps for modifying the permitted withdrawal amounts: (i) beginning in 2021, the Department shall accept requests for additional withdrawals from existing public water suppliers; (ii) beginning in 2022, the Department shall notify each large industrial permit holder that its permit will be modified; (iii) beginning in 2023, the Department shall reduce the permitted withdrawal amounts of the large industrial withdrawers and increase the permitted withdrawal amounts of public water suppliers as needed; and (iv) by July 1, 2017, the Board shall issue ground water permits for all public water suppliers in the EVGMA as their existing permits expire. The bill also states the findings of the General Assembly that the supply of ground water in the EVGMA is insufficient and that economic growth is hampered as a result, and it reaffirms the policy, found in state law, that preference be given to human consumptive use when proposed uses are in conflict.
